CAREER OBJECTIVE

Passionate and results-driven Full Stack Developer with a strong focus on frontend technologies, specializing in React.js, JavaScript, HTML, and CSS. I aim to create intuitive, responsive, and high-performance user interfaces that enhance user experiences. Backed by solid problem-solving skills in C++ (DSA) and Python, along with hands-on experience in backend development using Express.js and MongoDB, I strive to deliver seamless full-stack web solutions. I am seeking a dynamic opportunity to contribute to innovative projects, grow as a developer, and build impactful, user-centric applications.

PROJECTS

RailEase   **Jan 2025 - July 2025**

- A user-friendly and efficient platform built with React, designed to simplify train ticket booking with real-time availability and seamless reservation management.
- Smooth, responsive design built with React for easy navigation and booking.

Dribble   **Nov 2024 - Jan 2025**

- A sleek and interactive UI showcase platform inspired by Dribbble, built to display creative designs with smooth navigation and responsive layouts.
- Developed using ReactJS. Focuses on seamless UI and UX.

SecureVault   **Dec 2024 - Jan 2025**

- Designed a small-sized, efficient encryption/decryption process that offers strong protection (AES - GCM Algorithm) while optimizing performance and resource usage.
- Personalized keys for encryption and decryption.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering (AIML) | 2023 - Present
CU (Chandigarh University)
- Specialization: Focus on Artificial Intelligence (AI) and Machine Learning (ML).

Class 12 | 2023
R.O.I.S (CBSE Board)
- Percentage Scored - 84%

Class 10 | 2021
R.O.I.S (CBSE Board)
- Percentage Scored - 87%
